Dear sirs:

We of the Cheshire Academy Press Club would like to extend our services to your station. Our services include covering all home and away sports activities which in the winter includes: basketball, swimming, fencing, and wrestling. By this I mean we would be able to phone your station immediately after every game to give you the score, and if you desired, the line up.

Moreover, we have significant extra-curricular activities which include debating and dramatics. In the International Club, topics on international affairs are discussed, and in April a forum takes place that includes speakers from many different nations, who speak about their nations. At the end of the speech , boys ask many interesting questions which the speakers try to answer. The Glee Club, consisting of fifty boys, sings both popular and classical songs.

It is possible that you might be intwrested in reports on some of the activities or perhaps in having some of them recorded for broadcasting. If so we willbe glad to discuss with you your requirements and the possibilities of our meeting them.

In any case , we will appreciate hearing from you of any way we can be of service.

Sincerely yours,
Bob Perless
